

The COSMOS Environment

The COSMOS Environment is divided into three sections: the **COSMOS Toolbar** which runs along the top of the screen, the **Side-Bar Menu** which contains the **Project Navigation and Model Questions** on the left, and the **Responsive Model Canvas** on the right.

The way in which COSMOS works is based on the input provided from the Model Questions. When answers are provided and completed, the answers to these questions are then displayed, in real-time, in the Responsive Model Canvas:
